1 HARMAN KARDON Esquire, portable LS, BT, brown (without original packaging)

150€

Portable, wireless speaker with hands-free system  
Exclusive, portable sound

Always take your sound with you - wherever you go.

The Harman Kardon Esquire is a sophisticated portable speaker that is clearly different from other speaker systems. In short, the Harman Kardon Esquire is better. Prepare for a completely different way of traveling. The Harman Kardon Esquire is your new, on-the-road, Bluetooth® audio system. The Esquire is a Bluetooth® speaker with built-in hands-free telephone system that redefines music enjoyment on the go. This durable, portable speaker is made of high quality materials including a leather back and an aluminum finish.

On the inside you will find pure Harman Kardon engineering, with dual drivers and a built-in bass port for a clear sound. Customized microphones and echo / noise-cancellation technology ensure clear hands-free calls from your Bluetooth®-enabled smartphone. Thanks to a battery of up to 8 hours, the Esquire is ready for use anytime, anywhere. The stylish case provides protection while traveling and thanks to the 3-port USB adapter you can charge multiple devices simultaneously. Harman Kardon Esquire, a hands-free speaker system that can be used for multiple purposes and is the perfect partner for anyone who places high demands on sound quality in a portable form.

1 HARMAN KARDON Go Play, wireless portable LS, black

125€

Portable speaker that allows you to wirelessly stream audio from digital music devices.

Superior sound and style that are meant to get you moving - and to move with you.

For almost 60 years, Harman Kardon® engineers have been designing some of the most popular loudspeaker and amplification systems for audio at home and in the car, including the only audio system permanently included in the Museum of Modern Art collection (MoMA. ) in New York City.

In a continuous effort to turn personal audio into real art, Harman Kardon's technologists and artisans now deliver a powerful sound in a stunning wireless package: the Harman Kardon Go + Play " Wireless, a breathtakingly beautiful loudspeaker dock designed for an optimal reproduction of your digital music in an unparalleled package. Connect your iPhone or iPod and listen to music while your dock charges it. Or go full-on wireless: the HARMAN TrueStream " warranty ensures that you are assured of the highest sound quality via all your devices that support Bluetooth®, such as tablets, laptops and MP3 players. The Harman Kardon Go + Play Wireless, which is equipped with dual high-frequency, advanced mid-range transducer and drivers with large cone offset for the low frequencies, produces a very clear sound with deep, thundering bass. It not only offers great sound, but also a very attractive design that certainly fits in every place where you put it. But this beauty is not meant to always stay in one place: grab the slender handle of stainless steel and take the device with you everywhere. However, do not be mistaken. This is not just a standard audio dock. This is the unique Harman Kardon Go + Play Wireless.

System with AirPlay and Bluetooth® technology The technology of tomorrow in a new design</p> <p>High-performance, 2.1 CHANNEL, HOME ENTERTAINMENT System provides direct access to all your portable media. The Harman Kardon® BDS 280 is an elegant, high-performance, 3D Blu-ray Disc™ system that redefines the capabilities of Blu-ray. With three HDMI® inputs with 3D: HDMI Audio Return Channel (ARC) for compatible TVs: Wi-Fi® network connectivity, eliminating the need for a wired Ethernet connection: Apple AirPlay for streaming content from your iPad, iPhone, iPod or iTunes on your Mac or PC: Bluetooth® MultiConnect? technology for simultaneous coupling of two devices: NFC for simple Bluetooth® coupling and DLNA® 1.5. With the BDS 280, can you also connect to Pandora®, Picasa, AccuWeather? and other online services (if available). Harman Kardon's legendary best-in-class sound technology brings Dolby TrueHD and DTS Digital Surround to life. With Dolby Volume you can hear everything as originally intended, without disturbing the neighbors. Optimize your listening experience with the EzSet / EQ? speaker calibration system. Setting up and using the system is simple and enjoyable thanks to the attractive and attractive high-definition graphical interface or with the free remote app for iOS and Android. In other words, the BDS 280 increases the standards of what you expect from a Blu-ray system.</p> <p>Location: B18</p>	315€

1 JBL TRIP, Portable Bluetooth hands-free system

40€

Portable Bluetooth hands-free kit that can be clipped to the sun visor of your car  
Drive safely and smartly with this portable Bluetooth hands-free kit

Motorists are now faced with safety issues when using a smartphone in the car.

Legislation, lease agreements and user-friendliness play a role in choosing portable audio. All these factors have played a role in the design of the JBL TRIP. HARMAN's exclusive Voice Cancellation technology ensures crystal clear phone calls, even with road or wind noise.

Apps on your smartphone such as navigation and iONRoad, you can safely use via Bluetooth. The driver can simultaneously listen to the car radio for local news and traffic reports. Because the conversation does not stop when you park, the TRIP is also designed to take with you. You can easily attach it to the sun visor of a rental car or take it to your hotel room, kitchen or office while you work. Just as comfortable as a Bluetooth speaker and with the famous JBL sound. You can also listen to music for 8 hours before recharging.

Features and benefits

- He is portable
- Exclusive patented Noise Cancellation technology
- Music streaming via bluetooth
- Extended use of rechargeable battery
- Navigation and ADAS prompts via the smartphone
- Supports Siri, Google Now

Location: B18

1 HARMAN KARDON AVR161, 5.1 receiver, BT, Internet radio, USB

150€

425 watts, 5.1 channel, AVR for network use with Bluetooth connectivity  
Transform your living space into your own private screening room

This 425 watt, high-performance, 5.1-channel A / V receiver offers you more ways to connect with your favorite music, movies and television programs.

There are endless ways to access and store your favorite media from external hard drives to set-top boxes and smartphones. But if your home audio / video receiver does not offer you options to connect to these media, you hardly have anything to do with it. The Harman Kardon® AVR 161 offers you an easy way to connect with everything you love. This 425-watt, 5.1-channel audio / video receiver for network use is bursting with options that allow you to access your media. It offers five pre-prepared HDMI® inputs, including one compatible with MHL, giving you more than enough ways to access content on your HD cable box, Blu-ray player, with MHL equipped portable devices or Roku Streaming Stick? -dongle. It also offers DLNA® 1.5 networking and HARMAN TrueStream Bluetooth® technology, allowing you to stream hi-fi audio from your mobile devices.

As far as sound is concerned, the AVR 161 offers our exclusive Natural Sound Processing (NSP), which provides a rich, all-round sound from any source, especially with two-channel streaming content. And the automatic calibration of the system via the new EZSet / EQ? III process ensures the very best sound based on your speakers and listening environment. And with HARMAN GreenEdge™ technology, the AVR 161 is also environmentally friendly.

1 HARMAN KARDON AVR161S / 230, 5.1 AV receiver, IR, spotify, USB, black

165€

425-watt, 5.1-channel, AVR with network and Bluetooth connection

Change your living room in your private cinema

This High Performance 5.1 channel A / V receiver with 425 watts allows you to enjoy your favorite music, movies and shows in multiple ways.

You can store and use your favorite media in countless ways: from external hard drives to set-top boxes and smartphones. But if your home AVR is not equipped with the options to connect to that media, it is as good as useless. Thanks to the Harman Kardon® AVR 161S you can easily connect to everything you love. The AV receiver with 425-watt, 5.1-channels and network connection is full of options for optimal use of your media. It is equipped with five 3D-ready HDMI® 2.0 connections, including one compatible with MHL. So there are plenty of ways to use the media on your HD set-top box, Blu-ray player or MHL-equipped portable devices.

It also includes Spotify Connect and HARMAN TrueStream Bluetooth® technology so you can stream hi-fi audio from your mobile devices. As far as the sound is concerned, the AVR 161S is equipped with our exclusive Natural Sound Processing (NSP), which creates a versatile, room-filling sound regardless of the source - especially when streaming with two channels. Also, the new EZSet / EQ " III process automatically calibrates the system so that you get the highest quality sound from your speakers. And thanks to the HARMAN GreenEdge " technology, the AVR 161S is also environmentally friendly.

#### Features and benefits

Five 85-watt per channel amplifiers with a high performance digital power supply

Bluetooth technology

HARMAN TrueStream technology

More connection methods

Five 3D-ready HDMI® connections including one with MHL

Front panel USB port for connection to Apple products or USB sticks that are compatible

MHL connection

Dolby TrueHD and DTS-HD Master Audio decoding

EzSet / EQ III auto-calibration

HARMAN GreenEdge technology

1 JBL SYNCHROS E10, in-ear HPH, mic / rm, white

20€

In-ear headphones with a full spectrum of JBL audio with a modern look  
Switch to JBL quality audio in in-ear headphones with enhanced frequency response, a comfortable fit and tablet / smartphone-friendly functionalities to keep you connected and mobile. JBL is well aware that there is a need for quality audio and therefore designed this (robust) bold headset (new profile) for a modern mobile lifestyle. The JBL Synchronos E10 in-ear headset is easy to use for tablets and smartphones (is a tablet / smartphone-friendly solution), which opens the door to a full spectrum of JBL quality audio thanks to PureBass performance and 8 mm drivers. From its essential functionalities, such as an optimal, comfortable fit, lightweight design, modern design (progressive styling) - in a variety of colors to choose from - to its convenient, inline, one-button remote control / microphone and increased frequency range. You will be amazed at the performance that will undoubtedly exceed your highest (boldest) expectations. (The extra) A big plus is the (of a) supplied light (weight) carrying bag, to safely transport your E10, (underlines its portability). A purchase of this modern designed headphone will provide you with the best possible sound at an affordable price. (Why would you deny yourself the best possible sound when there is an affordable in-ear headset, which is undeniably proof of your good taste?)

1 JBL SYNCHROS S300I MFI, On-ear HPH, mic / rm, black / gray

65€

Premium On-Ear stereo headphones. Experience the revolution in portable sound  
You can now experience a sonic revolution in a portable form. The new JBL Synchronos S300 breaks with the traditional design of headphones. The S300 is lightweight but durable, has a steel headband and leather ear cushions. Comfort for hours of listening pleasure. The S300, inspired by the same JBL sound systems used in the most prestigious clubs in the world, delivers a balanced sound experience with great clarity and deep, powerful bass. Extremely compact thanks to rotatable and foldable ear cups. The S300 is available in 6 colors and is compatible with iOS and other smartphones.

1 AKG Y50, on-ear HPH, mic / rm, teal

45€

On-ear headphones with in-line 1-key universal remote / microphone cable  
AKG takes the pleasure of listening seriously

AKG sound quality in comfortable headphones designed to meet the demands of an on-the-go lifestyle. An inspiring sense of styling that makes a statement about what is important to you.

Phenomenal sound is inspiring. To this end, a product has been developed to relax despite the heavy demands in daily life. With additional features to transform previous generations of headphones into a full-service connectivity device that is indispensable. Sound from AKG level is isolated and enclosed in a closed sound box earcup design so that any other sound, except what is important to you, is excluded. With its lightweight and comfortable design, this is your perfect excuse to listen to hours from your lazy chair - and switch between conversations and music. A 1.2 meter long adjustable cable provides extra freedom of movement and the choice to use different devices. With the inline remote / microphone, hands-free calling and listening are easy. If you are in a hurry, the foldable 3D-Axis design offers the possibility to fold up the headset and carry it in a soft pouch. 	<p>174 1 AKG Y55, on-ear HPH, mic / rm, black</p> <p>High-performance DJ headphones with in-line microphone and remote control Put the case on stilts with AKG</p> <p>The AKG Y55 headset offers AKG sound quality and has been developed for an active lifestyle. With the functionality that is needed to focus on music.</p> <p>Nobody in the music world understands the importance of sound performances better than AKG. Get to know the AKG Y55 and its superior sound quality, with a closed sound box to keep ambient noise at bay, strengthen the bass response, and boost the frequency response to the limit. Add to that the optimal noise-blocking and an ideal fit, AKG Y55's improvements such as an in-line universal remote / microphone, detachable cable for extra freedom of movement and a plug adapter for extreme versatility. The rotatable ear cups, solid construction and high-quality materials also ensure durability and robustness to meet the demands of an active lifestyle. A fold-down, 3D-Axis design ensures compact storage and safe transport of the Y55 after the show. And the choice of four colors - with acrylic finish - gives you the opportunity to combine style and showmanship. The new Y55, specially designed for DJs, offers the best sound tool available to the music lover behind the turntable. These Y55s, indispensable for connoisseurs, are perfectly synchronized with your requirements, and also offer a superlative in sound experience with which you can perform optimally.</p> <p>Location: Cage cart</p>	50€
	<p>175 1 AKG Y50, on-ear HPH, mic / rm, black (faulty packaging)</p> <p>On-ear headphones with in-line 1-key universal remote / microphone cable AKG takes the pleasure of listening seriously</p> <p>AKG sound quality in comfortable headphones designed to meet the demands of an on-the-go lifestyle. An inspiring sense of styling that makes a statement about what is important to you.</p> <p>Phenomenal sound is inspiring. To this end, a product has been developed to relax despite the heavy demands in daily life. With additional features to transform previous generations of headphones into a full-service connectivity device that is indispensable. Sound from AKG level is isolated and enclosed in a closed sound box earcup design so that any other sound, except what is important to you, is excluded. With its lightweight and comfortable design, this is your perfect excuse to listen to hours from your lazy chair - and switch between conversations and music. A 1.2 meter long adjustable cable provides extra freedom of movement and the choice to use different devices. With the inline remote / microphone, hands-free calling and listening are easy. If you are in a hurry, the foldable 3D-Axis design offers the possibility to fold up the headset and carry it in a soft pouch. The daring new design gives you a choice of four beautiful colors and the recognizable logo shows your good taste. An eye-catcher for everyone. With a jealous sound quality.</p> <p>Location: Cage cart</p>	45€

1 HARMAN KARDON HKTS 2BQMKII / 230, 2.1.-ch home theater and music speaker system

105€

The compact choice for a 5.1 channel home cinema sound  
The Harman Kardon HKTS 9 speaker system is compact enough to easily fit even in a room with modest dimensions, but it delivers the powerful 5.1 channel sound you associate with your favorite home cinema system.

Designed for optimum performance, the dual center frequency speaker in the middle, the powerful satellites and the downward-facing 200 W subwoofer work together to immerse you in a realistic, 360 degree musical panorama with deep, satisfying bass. With all color-coded wiring and wall brackets that you need for almost all installations, the HKTS 9 makes the home cinema system simple and makes all guess work unnecessary.

1 JBL Cinema SB250, 2.1-ch soundbar, wireless subwoofer, black

145€

Provides cinema-quality sound for every flat-screen TV

The JBL Cinema SB250, designed for any flat-screen TV, offers stunning virtual surround sound in an elegant and simple device.

It can be connected wirelessly to the compact, powerful subwoofer and can be connected to a TV with a single cable. It can simultaneously enhance your viewing experience with advanced wireless Bluetooth streaming features like JBL SoundShift, that works simultaneously with your TV and wireless mobile device and allows you to automatically switch between the sound of your TV and the audio from your phone or tablet.

JBL Cinema SB250 can learn the volume control of any TV remote for easy operation of your Home Cinema system. A wall and table EQ switch calibrates the SB250 for each type of installation and with the independent volume control of the subwoofer you can adjust the bass response to your personal preference.

Features and benefits

1 HARMAN KARDON AVR151, 5.1 receiver, USB  
(without original packaging)

85€

375 watt, 5.1 channel audio / video receiver for network use  
Lighter closet. Greater sound

This 375-watt, high-performance, 5.1-channel A / V receiver makes your music, movies and television programs sound better than ever. Whether it's your Blu-ray player, HD cable set-top box or game console, you definitely want the best picture and sound quality. And you need one simple way to connect all of them. The Harman Kardon® AVR 151 is a 5.1-channel audio / video receiver for network use that offers four 3D-ready HDMI® inputs with 4K pass-through. Once connected and ready. With DLNA® 1.5 you can stream audio from your network devices and the built-in vTuner? Internet radio connects you to a whole world of online audio entertainment. The versatile and muscular AVR 151 can deliver up to 375 watts. This allows you to enjoy powerful audio with the clarity you love about Harman Kardon products. And the receiver is even lighter, thanks to HARMAN GreenEdge certification. You experience real power, but in an environmentally friendly format. And for people who like more control, the Harman Kardon Remote app is available for download. It offers you the freedom to control your home theater experience with optimal comfort via your own device. The slim, lightweight and powerful Harman Kardon AVR 151 offers the perfect balance between versatility and superb sound.
